This questionnaire should be completed by:

Instructions:

This survey will ask you a series of questions about your experiences and thoughts in a number of areas concerning school and your plans for the future. Take your time and think about each question carefully.

This questionnaire will be scanned by a machine to record your answers. For each question, please use the pencil provided for you and darken the oval that best reflects your answer. For example:

Have you ever: (MARK ALL OVALS THAT APPLY)
- driven an automobile?
- played soccer?
- held a job for pay?

In this example, if you have not driven an automobile, you should leave the oval to the left of the question blank, as shown above. If you have played soccer and held a job for pay, you should darken the appropriate ovals. It is important to use the #2 pencil provided for you and to darken all of the area inside the ovals.

In a few places in the survey, you will be asked to write answers directly on the questionnaire. In these cases, please print clearly and try to stay within the boxes provided for each answer. Do not write in other areas of the questionnaire since the optical scanner may mistake stray marks for answers.

If you have any questions about the correct procedure for recording your answers, please ask your monitor for help. When you finish the questionnaire, please return it to your monitor.

Please enter today's date (month/day):

Please enter the name and location of the school in which you expect to be enrolled next Fall.

SCHOOL NAME: ________________________________

CITY: ________________________________

STATE: ________________________________
Please list each course you are CURRENTLY ENROLLED in and the teacher’s name for that section/course. The first six questions ask you to grade each course: You may use all five letter grades: A, B, C, D, or F. Do not grade lunch, study hall, or free hours.

**SUBJECT MATTER:** How much do you like the subject matter of each course? A means you really like the subject; F means you hate it.

**TEACHER CLARITY:** How clear is the teacher in explaining the material? A means very clear; F means not clear at all.

**CHALLENGE:** How much does each course challenge you to use your mind? A means that it challenges you a lot; F means that it never challenges you.

**USEFULNESS:** How useful do you think each course will be to you in your career? A means that it will be very useful; F means that it will be of no use.

**TEXTBOOK CLARITY:** How clear is the textbook for each course? A means very clear; F means hard to understand. Leave blank if you do not use a textbook.

**DIFFICULTY:** How difficult or easy is each course for you? A means that it is very easy; F means that it is very difficult.

**COMPUTERS:** For each course, write Y if you sometimes use a computer; N if you never use a computer in that course.

**HOMEWORK:** How many hours of homework do you have for this class in an average week? Write the number of hours in each box.
**THIS SCHOOL YEAR I...**
(MARK ALL OVALS THAT APPLY)
☐ am on a sports team that competes against other schools
☐ am a member of an intramural sports team
☐ ran for an office in student government
☐ am having a lot of trouble keeping up with my classes
☐ am active in band or orchestra
☐ work on the school newspaper, yearbook, magazine, or other publication
☐ am an active member of a vocational education club
☐ am active in debate, speech, or drama
☐ am active in chorus or dance
☐ am an active member of a church or religious group
☐ belong to a science club
☐ belong to a math club
☐ belong to a computer club
☐ have talked to a teacher about my career plans
☐ have talked to my mother about my career plans
☐ have talked to my father about my career plans
☐ have talked to my school counselor about my career plans
☐ am bored with school
☐ use the school library at least once a week
☐ use a public library at least once a week
☐ could not get into all the courses that I originally wanted
☐ am active in cheerleading, pep club, or majorettes
☐ wrote a computer program
☐ had an outstanding teacher who changed my mind about what I want to do in my life
☐ thought seriously about dropping out of school
☐ did volunteer work in a political campaign
☐ entered a project in a science fair
☐ cut classes now and then
☐ worked part-time for pay
☐ worked full-time for pay
☐ read six or more books (not for class)
☐ visited a science museum, natural history museum, or planetarium
☐ visited an art museum
☐ visited a zoo, aquarium, or botanical garden
☐ read a news magazine most weeks
☐ talked with my parents about some issues in the news
☐ talked with my friends about jobs and plans for the future at least once
☐ used a computer for 10 hours or more (other than in a class)
☐ read a newspaper at least 3 times a week
☐ had disciplinary problems in school
☐ smoked a cigarette most days
☐ had a date with a person of the opposite sex most weeks
☐ am going steady with someone
☐ went to a movie at least once most weeks
☐ attended at least one school dance with a date
☐ sometimes worried about my safety at school
☐ had something stolen from me at school
☐ worked part-time in a business as a part of my school program
☐ attended at least one varsity football game
☐ attended at least one varsity basketball game

**My Parents...**
(MARK ALL OVALS THAT APPLY)
☐ insist I do my homework
☐ tell me how proud they are when I make good grades
☐ always find time to talk to me when I want to talk about something
☐ want me to learn about computers
☐ expect me to complete college
☐ buy me math and science books
☐ tell me how confident they are in my ability
☐ encourage me to participate in sports
☐ often help me understand my homework
☐ reward me for getting good grades
☐ are very busy and don't spend much time with me
☐ expect me to do well in science
☐ expect me to do well in math
☐ often don't understand how I feel about things
☐ think that math is a very important subject
☐ think that science is a very important subject
☐ ask me a lot of questions about what I'm doing in school
☐ would like for me to have a career in science, medicine, or engineering
☐ read a lot of newspapers and magazines
☐ read a lot of books
☐ really enjoy doing things with me
☐ set rules about the time I have to be home at night
☐ expect me to help with dishes after dinner
☐ assign me regular housekeeping jobs
☐ have too many rules about my behavior
☐ would not allow me to smoke if I wanted to
☐ expect me to take algebra and geometry
☐ limit the number of hours that I can watch T.V.
☐ set rules about how late I can stay up on week nights
☐ have met and talked with at least one of my teachers this year
☐ advise me about which courses I should take in school
☐ have the final say in selecting my school courses
☐ don't allow me to watch certain television shows
☐ have talked to me about which colleges I might attend
☐ have taken me to visit a college campus that I might want to attend
☐ have a strong preference about which college I should attend
☐ don't care whether or not I go to college
☐ will not be able to afford to send me to college

### IF YOU DID NOT TAKE A SCIENCE COURSE AT ANY TIME THIS YEAR, PLEASE GO TO NEXT COLUMN
Please indicate the reasons you selected the science course you took this year:
(MARK ALL OVALS THAT APPLY)
- I need the course for my career
- My mother/father wants me to take it
- My teachers(s) encouraged me to take it
- A school counselor recommended it
- Most of my friends are taking that course
- My boyfriend/girlfriend is taking the course
- I want a high grade point average
- This course fits my ability level
- I need it for college
- It was the only science course available
- It fit into my course schedule
- My placement test score indicated I should take it

### MY SCIENCE TEACHER THIS YEAR...

Write in here the names of the two jobs or occupations that you think you are most likely to have when you are 40 years old. Even if you are not at all sure, write in your best guesses. DO NOT WRITE OUTSIDE BOXES

First Choice: 

Second Choice: 

How sure are you of your FIRST CHOICE of job?
- Very sure
- Fairly sure
- Not sure

What is your mother's reaction to your FIRST CHOICE of job? (MARK ONE OVAL ONLY)
- Very pleased with this choice
- Doesn't care what job I choose
- Doesn't want me to do this kind of work
- Doesn't know about this choice
- I don't know what she thinks

What is your father's reaction to your FIRST CHOICE of job? (MARK ONE OVAL ONLY)
- Very pleased with this choice
- Doesn't care what job I choose
- Doesn't want me to do this kind of work
- Doesn't know about this choice
- I don't know what he thinks

How much encouragement have you received from the following on your FIRST CHOICE of job? (MARK ONE OVAL FOR EACH LINE)

My mother
My father
My brother or sister
Another relative
A teacher
A school counselor
My friends
What I have read

A LOT SOME NONE

Which one of the following has had the MOST influence on your FIRST CHOICE of job? (MARK ONE OVAL ONLY)
- My mother
- My father
- My brother or sister
- Another relative
- A teacher
- A school counselor
- My friends
- What I have read

What is the highest level of education you will need to qualify for your FIRST CHOICE of job? (MARK ONE OVAL ONLY)
- Less than high school graduation
- High school graduation only
- Vocational or trade school
- after high school
- College
  - some college, but no degree
  - 2-yr (Associate) degree
  - 4-yr college degree
  - Master's degree or equivalent
  - Ph.D., M.D., or other advanced degree
- I am not sure

Which of the following high school math courses will you need to take to qualify for your FIRST CHOICE of job? (MARK ALL THAT APPLY)
- None, I don't need any for this job
- Geometry
- Algebra
- Trigonometry
- Calculus
- I am not sure

Which of the following high school science courses will you need to take to qualify for your FIRST CHOICE of job? (MARK ALL THAT APPLY)
- None, I don't need any for this job
- Biology
- Chemistry
- Physics
- I am not sure

I would prefer a job or career that...
(MARK ALL OVALS THAT APPLY)
- does not require many years of college
- does not take too much time away from my family
- allows me to work with other people in teams
- does not require a lot of mechanical ability
- does not require a lot of math ability or training
- allows me to work independently most of the time
- allows me to work with numbers and formulas
- requires a lot of abstract thinking
- has clearly defined hours and tasks

How many days of school have you missed so far this school year?
- none
- 1 to 5 days
- 6 to 10 days
- 11 to 15 days
- 16 to 20 days
- 21 days or more
As things stand now, how far in school do you think you will get?

(MARK ONE OVAL ONLY)

- Less than high school graduation
- High school graduation only
- Vocational, trade, or business school after high school
- Less than two years
- Two years or more
- College program
  - Less than two years of college
  - Two or more years of college
  - Finish college (four- or five-year degree)
  - Master's degree or equivalent
  - Ph.D., M.D., or other advanced degree

What is your grade in school this year?

(MARK ONE OVAL ONLY)

8 9 10 11

What do each of the following people think you ought to do after high school?

(MARK ONE OVAL FOR EACH COLUMN)

- Go to college
- Get a full-time job
- Enter a trade school
- Begin an apprenticeship
- Enter military service
- They don't care
- I don't know

How do you feel about each of the following statements?

(MARK ONE OVAL FOR EACH LINE)

- There is really no such thing as a problem that can't be solved.
- Anyone can learn algebra, geometry, and calculus if they are willing to work hard.
- A good teacher is one who makes you wonder about your way of looking at things.
- It is more fun to tackle a complicated problem than to solve a simple one.
- Anyone can learn biology, chemistry, and physics if they are willing to work hard.
- In the long run it is possible to get more done by tackling small, simple problems rather than large and complicated ones.
- Many of our most important decisions are based upon insufficient information.
- People who fit their lives to a schedule probably miss most of the joy of living.

Please indicate what type of school you attended in each of the grades listed below.

(MARK ONE OVAL FOR EACH COLUMN)

Thinking about your high school years, please indicate what you think about the following statements:

(MARK ONE OVAL FOR EACH LINE)

- Overall, I think I have gotten a good education at this school.
- Most of the students in this school work hard and take their courses seriously.
- Most of my teachers care about my needs.
- This school has serious problems with vandalism and student violence.
- I feel a lot of loyalty to this school.
- Most of the students in this school do not plan to go to college.
- I would have been happier at another school.
- Other students often disrupt class.
- I have never felt like I fit in at this school.
- A lot of students in this school cut classes or skip school altogether.
- This school has been a very good place to study and learn.
Both jazz and one of its greatest figures, Louis Armstrong, were born in New Orleans. When he was a child, Armstrong taught himself to play the cornet and the bugle. As a young man he worked by day as a coalman and a milkman, and at night he played with jazz groups. After jobs entertaining guests on Mississippi River boat trips, Armstrong went to Chicago where he joined Erskine Tate's orchestra. There he switched instruments and, still without ever taking a music lesson, became known as the "World's Greatest Trumpeter". Like all great performers, Armstrong possessed an instinctive musicianship. He mellowed the brass-band sound of early jazz and introduced "scat" singing, using his gravelly voice as a musical instrument and singing nonsense syllables instead of words. A superb entertainer, he appeared in films and Broadway shows and played to standing ovations in concerts around the world. On one of his European tours in the 1930's he played before England's King George VI, to whom he dedicated a musical number with the words, "This one's for you, Rex!" Armstrong was internationally loved and admired throughout his long career. In 1971, he died at the age of seventy-one, and the United States lost one of its finest goodwill ambassadors.

To give some idea of how newly arrived human beings are, we might try setting the ages of geologic time against the span of our own twelve-month year. If we say that the earth was first formed in January, then the primeval ocean came into being perhaps as early as March, certainly no later than June. Life first appeared in late August, the earliest fossils appeared in November, and the dinosaurs had their day in mid-December. The first humanlike forms entered the scene shortly before midnight on December 30, and Homo sapiens appeared ten minutes before midnight on New Year's Eve.

The main point of the passage is to

- emphasize how short a time humans have been on earth
- give a brief description of the evolution of humans
- present an outline of the various geological ages
- support a particular theory on the formation of the earth
- make humans aware of how little control they have over their destiny

On the twelve-month time scale used by the author, it took human beings approximately how long to evolve from the first forms of life?

- Ten minutes
- One day
- Four months
- Nine months
- One year

The author seems LEAST certain about when

- Homo sapiens first appeared
- the first humanlike creatures appeared
- there were dinosaurs on earth
- the oceans were formed
- life on earth began

In terms of the information in the passage, how long after the dinosaurs did the first humanlike forms appear?

- Ten minutes
- One day
- Two weeks
- One month
- One year
One theory of the effect of sunspots is that they have great influence on the earth. This theory suggests that "spots" on the sun consist of great whirling, fiery storms. In years when there are many sunspots, we have electric changes on our planet. There is much radio interference, and compasses on ships and planes do not point true. We have especially fine displays of northern lights. It is even believed that, in heavy sunspot years, people are more active and have shorter tempers. But perhaps most important, heavy sunspot years are years of long droughts.

Of all the forces reshaping the American city, the most powerful and insistent are those rooted in changing methods of transportation. The changes are so big and obvious that it is easy to forget how remarkable they are. The streetcar has all but disappeared, the bus is proving an inadequate substitute, commuter rail service worsens, subways get dirter, and new expressways pour more and more automobiles into the center of town.

If transit riding continues to decline and if automobile use continues to rise unchecked, how can the vital core of the city survive? Many city planners say flatly that it cannot. The only sure way to relieve congestion and preserve the unifying core of the city, supporters of mass transit claim, is to get people out of private automobiles and into public transit - "to move people, not vehicles".

The author suggests that the remarkable changes in transportation are often overlooked for which of the following reasons?
- They have taken place very gradually over the years.
- They have proved to be more effective than old methods.
- They are so obvious that they are taken for granted.
- They have created new problems for city planners.
- They have decreased congestion in the cities.

The passage primarily is concerned with which of the following?
- Various factors influencing the American city
- The disappearance of the streetcar
- The need for faster automobiles
- The growing network of expressways
- The effects of transportation changes on the city

According to the passage, many city planners feel that the growing use of automobiles rather than public transit will result in
- the construction of more and more expressways
- the deterioration of the vital center of the city
- the relief of congestion in the city
- a decrease in commuter rail service
- demands for limitations on the use of automobiles

The author would probably support all of the following efforts EXCEPT
- charging higher parking fees in municipal garages
- cleaning up the subway trains and stations
- improving train service to the outlying suburbs
- increasing the advertising budget for the transit system
- building more highways into the centers of cities

THANK YOU FOR COMPLETING THE QUESTIONNAIRE!
